PROFESSIONAL SUMMARY

Web Development graduate (BS Information Technology, DLSU-D, 2026), Dean's Lister, and AWS Certified Cloud Practitioner with a four-month internship building React and TypeScript features and PostgreSQL row-level security for a corporate web platform. Completed Cisco's Introduction to Modern AI and uses AI-assisted coding tools while reviewing, testing, and adapting the generated output. Co-developed a POS and inventory system that was a Best Capstone candidate. Interested in applying AI to customer support and knowledge-based solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, C++
Frontend: React, HTML, CSS, Responsive Design
Databases & Backend Services: PostgreSQL, MySQL, MongoDB, SQL, Supabase
Tools & Deployment: Git, GitHub, Vercel, Visual Studio Code
Design: Figma
AI & Cloud: AWS Cloud Practitioner (certified), AI-assisted and agentic coding workflows, Introduction to Modern AI (Cisco course)

WORK EXPERIENCE

Match Me Auto Group Inc., Pasay City — Jan 2026 – Apr 2026
Web Developer Intern

- Built and maintained web application features using React and TypeScript, translating Figma UI/UX designs into responsive, functional components.
- Contributed to the development of a Corporate Portal covering job posting, analytics, payments, and billing in one centralized platform.
- Developed an invoice generation feature within the Corporate Portal to support business billing and payment processes.
- Created and managed PostgreSQL tables and SQL queries, and implemented Row-Level Security (RLS) policies to control user access to data.
- Used AI-assisted and agentic coding workflows to speed up feature development and debugging, reviewing, testing, and adapting generated code.
- Worked with teammates to troubleshoot and refine features, keeping the implementation aligned with design requirements.

PROJECTS

Smart Café – POS and Inventory Management System for Blessings Café — 2025
Tech: JavaScript, MongoDB, Figma

- Co-developed a web-based point-of-sale and inventory management system with a team.
- Designed the UI and user flows in Figma and implemented product management functionality.
- Built analytics and report-generation features to present system data for business reporting.
- Candidate for Best Capstone, College of Information and Computer Studies, DLSU-D.

EDUCATION

De La Salle University – Dasmariñas, Dasmariñas City — August 2026
BS Information Technology, Specialization in Web Development
GWA: 3.56 / 4.00 | Dean's Lister, 2022–2026

CERTIFICATIONS

- Cisco Networking Academy: HTML Essentials; Introduction to Cybersecurity; CyberThreat Management; Introduction to Modern AI
- AWS Certified Cloud Practitioner, Amazon Web Services | Sep 2026

ACTIVITIES

College of Information and Computer Studies (CICS), Data Management Committee — Aug 2023 – Jul 2024

- Verified and cross-checked student records for accuracy and completeness.
- Maintained and updated student data in Microsoft Excel to support departmental reporting.

ADDITIONAL

Languages: English (fluent), Filipino (native)
